

Rhythm of Life – Light up Impact

TAILORING PROJECT - UGANDA

Date: 31st. October. 2022

Introduction.

Rhythm of Life (ROL) is a member of the #LightUp Impact community since last year 2021 when she joined this movement of fellow social initiatives, CBOs and NGOs whose programmatic designs are around women and girls' empowerment in East Africa.

KEY ACTIVITIES.

We received 500 Euros from Light up to supplement our economic empowerment pillar through the tailoring training cohort. This was a three months training and finally the participants graduated on the 5th. October.2022.

With many success stories on how the skill is enabling them thrive in the new world, they also exhibited most of the products they had made (Photo below).

The participant graduation also marked the official launch of the savings group named “DREAM LADIES’ SACCO GROUP” a name they attained as members where they are doing monthly savings to initiate their financial independence, which savings are also supplemented by ROL to boost their financial freedom.

Gratitude.

Thank you Light up impact for the support with the tailoring project.

We are also working on the “Judge Me Not” Series that will be featuring stories of some of beneficiaries during the 16 days of activism. An idea we got during the Founders’ Visit.

We hope to walk more journeys of impact with you as we build synergies in the community. **ASANTE SANA!**
