COMPLETION REPORT OF LIGHTUP FOUNDER TOUR GIFT

Project title:	Teenage Mothers Reintegration Into Society Initiative
Name of the organization:	Wheels Of Hope Community Based Organization
Address:	Mtwapa
Phone number:	+254721518128
E-mail:	wheelsofhopecbo@gmail.com
Represented by (name):	Collins Wekesa
Project manager (name):	Esther Mali
Project start date:	7th February 2022
Project end date:	December 2022
Amount received (in EURO):	500
Description of the achieved goals and results (description of conditions under which the project was implemented, its main results):	Ten teenage mothers in Wheels Of Hope Community Based Organization program benefited from 500 euros. Initially each was to receive 50 euros worth of packages but we realized that would limit the impact especially with having the kids at the daycare center daily. Three factors remained constant; all ten teen mums received sanitary pads to last three months, panties and bras, stationery to use in school/tertiary course, and a jumbo package of pampers for each kid that lasted a month. We even had enough to add three jumbo pads which remained at the daycare and were used by kids who came there on a daily basis. During that period. For food we agreed that we would buy collectively for them at the daycare centre for a whole month due to having the kids there and also for the teen mums who go to school in the nearby Kireme Primary School and come to the centre for lunch with their kids and to breastfeed them. In

	<p>the end it even benefited more teen mums and kids as daily we received an extra two or three kids and their teen mums. Over weekends they carried what they needed on Friday to carry them upto Monday</p>
<p>Lessons learned (obtained experience):</p>	<p>The original plan and what happens on the ground may vary and its good to adopt to the situation on the ground.</p>
<p>Number of people benefiting from the project</p>	<p>10 teenage mothers and their 10 kids, a total of 20 beneficiaries</p>
<p>Sustainability (activities and steps that must be done to keep the project outcome):</p>	<p>We have a business plan in place and need funding of 3,000 euros to take off that will help the project have its own source of funding and will keep it sustainable other than relyong on donors all the time. It entails tourism and cycling accessories.</p>

In Conclusion, from the entire Wheels Of Hope CBO team we would like to appreciate Lightup Impact for standing with us and helping us when we needed. The journey we have is still long and we are just beginning and hope that in future we will work together again.
