

IMPRINT

non-profit limited liability company registered in Austria:

Lightup Impact- gemeinnützige Gesellschaft mbH (gGmbH)

Florianigasse 10.1.10

1080 Vienna

Business model: we combine entrepreneurial activity with donor funding. Currently we monetize through grants, individual donations and our own investment. However in the future our ambition is also to act as consultants to companies who want to invest in social impact. In this way, we aim at generating our own income for sustainability purposes, while remaining a non-profit organization: the income generated will be entirely invested in our organization (salaries and projects) and in support of our member organizations.
